## 7 FAQ

**Q: After plugging in the USB cable the drive didn't start to spin, why?**

**A:** This might occur when the drive isn't properly connected or then it is not sufficiently powered. Use different USB port, different cable (ideally a Y split cable with additional USP connector for power).

**Q: Installation of the drive was canceled with warning that the device was not recognized.**

**A:** Unplug the drive from the USB port on your computer and try to plug it in again. If that doesn't work, try steps from the previous answer.

**Q: I have a different issue with this product that is not answered here.**

**A:** Please contact your retailer or the support of CONNECT IT brand on contacts listed on a last page.

# Obsah je uzamčen

**Dokončete, prosím, proces objednávky.**

**Následně budete mít přístup k celému dokumentu.**

**Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:**

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne\*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

*\*) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
