CREATIVE® BT-W3X

Smart *Bluetooth*® 5.3 Audio Transmitter
with aptX™ HD

QUICK START GUIDE

使用产品前请阅读使用说明

MODEL NO / 型号 / 型號: SA0180

OVERVIEW

1 LED Indicator

2 *Bluetooth*® Button

BLUETOOTH PAIRING: NEW DEVICE

Creative BT-W3X will automatically enter *Bluetooth* pairing mode right out the box. Press and hold the button for 2s to manually trigger *Bluetooth* pairing.

| Button | Action | LED Indicator |
|--|-------------------------------------|--|
|  2s | Enter <i>Bluetooth</i> Pairing Mode | Flashing Blue  |
| N / A | <i>Bluetooth</i> Paired | Supported Codec's LED Indicator |

Creative BT-W3X supports up to four paired devices at a time. To pair to a new device, repeat the steps above. Creative BT-W3X will remember paired devices 1-4 based on the sequence of first-time pairing.

CONNECTIVITY

BLUETOOTH PAIRING: CONNECTING TO PAIRED DEVICES

The *Bluetooth* button also works as a multifunction button, allowing you to switch connection between paired devices. Press the button once to switch between paired devices.

| Button | Action | LED Indicator |
|---|--|---|
|  x1 | Switch Connection Between Paired Devices | Flashing White  |
|  x1 Connecting to Device 1 |  x2 Connecting to Device 2 | |
|  x4 Connecting to Device 4 |  x3 Connecting to Device 3 | |

When switching between paired devices, the LED indicator will flash white a number of times to indicate the paired device's sequence.

If no devices are available to pair when the *Bluetooth* button is pressed, Creative BT-W3X will remain in search mode and alternate between paired devices for 20s each time based on their sequence while the LED indicator flashes white.

When there are 4 devices paired to the audio transmitter, a newly paired device will replace the least used device. E.g. if the 3rd device is the least used device and you would like to pair a 5th device to Creative BT-W3X, the 5th device will replace 3rd device's placement.

HFP MODE

Hands-free Profile (HFP) mode allows wireless communication on your Bluetooth-enabled devices with built-in microphone when the audio transmitter is connected and in use.

When Creative BT-W3X is removed and plugged into another USB port on a separate device, it will exit HFP mode and return to its usual function.

| Button | Action | LED Indicator |
|---|----------------|--|
|  x2 | Enter HFP Mode | Solid Red  |
|  x1 | Exit HFP Mode | Last Codec Used |

AUDIO CODEC

Creative BT-W3X supports aptX HD, aptX, and SBC codecs and will automatically select the best supported codec based on the connected audio device.

| Audio Codec | LED Indicator |
|-------------------------|---|
| Qualcomm aptX HD | Solid Gold  |
| Qualcomm aptX | Solid Green  |
| SBC | Solid Blue  |

MASTER RESET

Press and hold the *Bluetooth* button for 5s to perform a Master Reset. The LED indicator will start flashing red. The audio transmitter will revert to its default state upon completion.

CREATIVE APP

Set up your product, personalize audio settings, enhance your product's performance, and more with the Creative app*.

- Manually select preferred remembered device to establish connection
- Experience professionally-tuned audio presets for movies, music, and games
- Set up speakers and headphones' configurations
- Configure Playback, Recording, and other settings

Up to Stereo 24-bit / 48 kHz

Operating Range:

Up to 50m / 165 ft (unobstructed line-of-sight)

Operating Temperature: 0–45°C

Max. RF Output Power: 10 dBm

Input: 5V  100 mA

[^]Controlled from connected receiver

*Receivers must be able to support the mentioned codecs to use them

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
