Before switching on the power supply

IMPORTANT SAFETY INSTRUCTIONS

Attention: Read this page carefully to ensure safe operation of the device.

Read instructions carefully!

– Follow all safety and operating instructions when using this product.

Keep the instructions in a safe place!

– You should keep the safety and operating instructions for future reference.

Follow the warning instructions!

– You should strictly follow all warnings provided on the product and listed in the operating instructions.

1. Clean only with a dry cloth!

– Unplug the mains adapter of this device from the mains socket before cleaning this product. Never use liquid cleaning detergents or cleaning sprays. Use only a damp cloth for cleaning.

2. Accessories

– Use only the accessories specified by the manufacturer.

3. Do not use this device near water

– The device should never be exposed to water droplets or water splashes, such as those found near a bathtub, wash basin, kitchen sink, washing machine, wet basement or swimming pool. Never place containers filled with liquids, such as e.g. flower vases, on the device.

4. Ventilation

– Slots and openings in the housing are used to ventilate the device to ensure reliable operation of the device and to protect the device from overheating and possible autoignition. Do not block the ventilation holes. Install the device according to the manufacturer's instructions. Never block the ventilation holes by placing the device on a bed, sofa, rug, or similar soft surfaces. This device should not be installed in a bookshelf or built-in wardrobe unless adequate ventilation is ensured.

5. Power supply

– This device may only be connected to the mains voltage with the supplied mains adapter. Use this adapter for the Compact Radio CR-ST50DAB only. In any case, make sure that the local mains voltage matches the specifications on the mains adapter. If you are unsure about the type of power supply in your home, contact your specialised dealer or power company.

6. Mains adapter

– Make sure that you can not trip over the cable or that it is disconnected in the immediate vicinity of a power outlet, including auxiliary sockets. Also, at the exit from the mains adapter, the cable must not be squeezed under any circumstances.

7. Thunderstorm

– The device should be disconnected from the mains during thunderstorms and if it is not used for a long time.

8. Overload

– Never overload mains sockets, extension cords or multiple sockets, otherwise there is a risk of fire or electric shock.

9. Penetration of foreign material and liquid

– Be careful not to allow foreign material or liquid to enter this device through ventilation holes, otherwise it may come into contact with high voltage components or short circuit resulting in a fire or electric shock. Never spill liquids of any kind on this device.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
