When contacting Service, ensure that you have the following data available.  
The information can be found on the rating plate. Model, PNC, Serial Number.

Warning / Caution-Safety information.

General information and tips

Environmental information.

Subject to change without notice.

## 1. SAFETY INSTRUCTIONS

 **Caution!** Closely follow the instructions set out in this manual. All responsibility, for any eventual inconveniences, damages or fires caused by not complying with the instructions in this manual, is declined. The extractor hood has been designed exclusively for domestic use.

 **Caution!** Do not connect the appliance to the mains until the installation is fully complete. Before any cleaning or maintenance operation, disconnect hood from the mains by removing the plug or disconnecting the mains electrical supply.

Always wear work gloves during the maintenance, installation and lighting operations. The appliance is not intended for use by children or persons with impaired physical, sensorial or mental faculties, or if lacking in experience or knowledge, unless they are under supervision or have been trained in the use of the appliance by a person responsible for their safety. This appliance is designed to be operated by adults, children should be monitored to ensure that they do not play with the appliance. This appliance is designed to be operated by adults. Children should not be allowed to tamper with the controls or play with the appliance. Never use the hood without effectively mounted grating! The hood must NEVER be used as a support surface unless specifically indicated. The premises where the appliance is installed must be sufficiently ventilated, when the kitchen hood is used together with other gas combustion devices or other fuels. The ducting system for this appliance must not be connected to any existing ventilation system which is being used for any other purpose such as discharging exhaust fumes from appliances burning gas or other fuels. The flaming of foods beneath the hood itself is severely prohibited. The use of exposed flames is detrimental to the filters and may cause a fire risk, and must therefore be avoided in all circumstances. Any frying must be done with care in order to make sure that the oil does not overheat and ignite.

 **Caution!** Accessible parts of the hood may become hot when used with cooking appliance.

With regards to the technical and safety measures to be adopted for fume discharging it is important to closely follow the regulations provided by the local authorities. The hood must be regularly cleaned on both the inside and outside (AT LEAST ONCE A MONTH).

This must be completed in accordance with the maintenance instructions provided in this manual). Failure to follow the instructions provided in this user guide regarding the cleaning of the hood and filters will lead to the risk of fires. Do not use or leave the hood without the lamp correctly mounted due to the possible risk of electric shocks. We will not accept any responsibility for any faults, damage or fires caused to the appliance as a result of the non-observance of the instructions included in this manual.

 **Warning!** Failure to install the screws or fixing device in accordance with these instructions may result in electrical hazards.

## 2. USE

The hood serves to aspirate the fumes and vapors resulting from cooking.

The attached installation manual indicates the version to be used depending on the model you have, the suction version with

external evacuation  or filtering with internal recirculation .

## 3. INSTALLATION

The mains power supply must correspond to the rating indicated on the plate situated inside the hood. If provided with a plug connect the hood to a socket in compliance with current regulations and positioned in an accessible area, after installation. If it not fitted with a plug (direct mains connection) or if the plug is not located in an accessible area, after installation, apply a double pole switch in accordance with standards which assures the complete disconnection of the mains under conditions relating to over-current category III in accordance with installation instructions.

 **Warning!** Before re-connecting the hood circuit to the mains supply and checking the efficient function, always check that the mains cable is correctly assembled.

# Obsah je uzamčen

**Dokončete, prosím, proces objednávky.**

**Následně budete mít přístup k celému dokumentu.**

**Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:**

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne\*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

*\*) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
