Safety Instructions and Warnings

The product is designed to serve reliably for many years if used properly.

- Read the user manual thoroughly before use.
- Do not place the product in locations prone to vibration and shocks – these may cause damage.
- Do not expose the product to rain or moisture if it is not designed for outdoor use.
- Do not place any open flame sources on the product, e.g. a lit candle, etc.
- To clean the product, use a slightly moistened soft cloth. Do not use solvents or cleaning agents - they could scratch the plastic parts and cause corrosion of the electric circuits.
- Do not submerge the product in water or other liquids or expose it to dripping or splashing water.

- If the product becomes damaged or defective, do not perform any repairs yourself; bring it for repair to the store where you bought it.
- This device is not intended for use by persons (including children) whose physical, sensory or mental disability or whose lack of experience or knowledge prevents them from using it safely. Such persons should be instructed in how to use the device and should be supervised by a person responsible for their safety.

Do not dispose with domestic waste. Use special collection points for sorted waste. Contact local authorities for information about collection points. If the electronic devices would be disposed on landfill, dangerous substances may reach groundwater and subsequently food chain, where it could affect human health.

Hereby, EMOS spol. s r.o. declares that the radio equipment type J0657 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <http://www.emos.eu/download>.

Antenna

Power supply

Device Description

Digital active DVB-T/T2 antenna for indoor use with low-noise amplifier

Installation

- Connect the coaxial cable from the antenna to the TV receiver or set-top box.
- Connect the connector from the power supply to the socket on the back of the antenna (fig. 1).
- Connect the power supply to a 230 V power socket.
- The antenna can also be powered from the TV or set-top box if the device supports this feature.
- Turn on the amplifier using the switch on the back of the antenna.
- Keep changing the placement of the antenna while monitoring the signal quality on the connected TV.
- To achieve the best reception quality, place the antenna as close the window as possible.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
