Thank you for purchasing our product.

Before using this unit, please read this manual.

The Electronic Insect Killer utilizes light with ultra-violet rays of the wave length, which is proven to be the most effective lure for light sensitive flying insects, such as flies, moths, mosquitoes, and other flying insects. These insects are electrocuted by the electrically-charge metal grids. No chemicals, no smell, no sprays, no mess, pollution free and harmless to humans and pets. It is ideal for using in houses, factories, food outlets, restaurant, canteen, office, hospitals, etc.

Usage guide:

1. Fit to any E27 lamp holder, light on to use.
2. Place it at the darkest corner for a better efficiency.

WARNINGS:

- High voltage! Do not touch the inner electric grids.
- Children cannot play with it.
- Never put metal objects inside the grids while in operation.
- Check the local voltage before operating.
- Place it where children cannot reach.
- Household use only.
- The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Keep the appliance and its cord out of reach of children less than 8 years.
- Children should be supervised to ensure that they do not play with the appliance.
- Keep away from flammables.
- Clean the collection tray regularly. We recommend that you clean the device monthly or earlier if necessary.

CAUTIONS:

“This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety”.

Dangerous voltage!

Technical specifications:

Voltage: 220-240 V

Frequency: 50/60 Hz

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
