**Warning**

1. Make sure that the appliance has not been damaged during transport.
2. Make sure you have all parts of the appliance.
  - 1x Instruction Manual
  - 1x Blender
  - Big lid, small lid, tamper, main body, jar (including blade and the retaining nut), spanner, spatula.
3. Place the appliance on a level stable surface. Do not tilt the appliance. Do not place the appliance near flammable materials.
4. Protect the appliance against direct sunlight and rain.
5. In order to prevent leakage of electricity, the appliance must be plugged into a properly grounded electrical socket.

**Safety instructions**

1. Before first use read the safety instructions.
2. Make sure the appliance is plugged in 220-240 V socket.
3. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
4. DO NOT allow children to play with the appliance. Keep them at a safe distance from the appliance while operating.
5. Do not forget to install the lid for container before using. Thanks to Big lid's opening and pusher is possible to mix the ingredients inside the device. After the device is turned off, remove the container and use the spatula to remove all food residues.
6. When switching on the appliance, hold the lid to prevent its release.
7. During operation, do not remove the lid and do not put your hands into the jar.
8. Do not put any metal items like knives, forks, spoons, etc. into the JAR.
9. Do not leave the appliance run on empty for more than 2 minutes. It causes generation of high temperatures that may cause damage to the lubrication system of the appliance.
10. In case that blade drops out or breaks, immediately switch off the appliance. Then contact the authorized service center.
11. During cleaning or removing parts, do not forget to turn off power and unplug the appliance.
12. Do not immerse the main body into water. Do not wash the main body under running water directly in order to prevent electric shock.
13. Do not clean the blades with bare hands because they are very sharp. Use brush or a strong cloth.
14. If the appliance is overfilled, overfill protection automatically switches off the appliance. Reduce the amount of food inside the jar.
15. If the appliance does not work, pull it from the wall socket and wait until the temperature fall.
16. If the power cord is damaged, the replacement must always be carried by an authorized service center.

# Obsah je uzamčen

**Dokončete, prosím, proces objednávky.**

**Následně budete mít přístup k celému dokumentu.**

**Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:**

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne\*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

*\*) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
