FIRST TIME USE

HOW TO START THE APPLIANCE

After plugging the appliance to the mains, it starts the operation automatically. After starting the appliance, wait at least 4-6 hours before placing food into the fridge and into the freezer compartment.

When the appliance is connected to the power supply, the display lights up and all the icons appear on the display for approximately 1 second. The default (factory) values of the fridge - freezer compartment settings light-up.

DAILY USE

See Use and Care Guide for more details on functions / see last page for information on how to obtain the Use and Care Guide

FUNCTIONS

ON/STANDBY INDICATOR /BUTTON

To put the product in Stand-by, press and hold for 3 seconds. All the icons turn off except:

FRIDGE TEMPERATURE

To adjust the Fridge Temperature, press the  Fridge °C button. The Fridge Temperature can be adjusted between +2°C and + 8°C, as shown by the Fridge Temperature LEDs.

FAST COOL

Using Fast Cool function it is possible to increase the cooling in the refrigerator compartment. The use of this function is recommended when placing a very high quantity of food in the refrigerator compartment. Press & hold for 3 sec. the Fridge °C button to activate Fast Cool function. When activated, the Fast Cool indication will be displayed by the Fridge Temperature LEDs as shown in the beside sequence. The function is automatically disabled after 6 hours, or can be manually disabled by pressing Fridge °C button.

FREEZER TEMPERATURE

To adjust the Freezer Temperature, press the  Freezer °C button. The Freezer Temperature can be adjusted between -16°C and -24°C, as shown by the Freezer Temperature LEDs.

FAST FREEZE

The use of this function is recommended when placing a very high quantity of food to be frozen in the freezer compartment. 24 hours before freezing fresh food, press & hold for 3 sec. the Freezer button to activate the Fast Freeze function. When activated, the Fast Freeze indication will be displayed by the Freezer Temperature LEDs as shown in beside sequence. After 24 hours place the food to be frozen in the upper basket of freezer compartment. The function is automatically disabled after 48 hours, or can be manually disabled by pressing Freezer °C button.

KEY LOCK FUNCTION

To lock/unlock the keys of the Control Panel, press the Key Lock button for 3 seconds. The Key Lock indicator is on when the option is engaged.

6TH SENSE INDICATOR

6th Sense technology automatically works to ensure the optimal conditions to preserve the stored food.

SMART DISPLAY

This optional function can be used to save energy. To activate the Smart Display, press  Fridge °C and  Freezer °C buttons at the same time for 3 seconds until an audible signal sounds. To deactivate this function repeat the same procedure. Remember that this function does not disconnect the appliance from the power supply, but only reduce the power consumed by external display.

FOOD CARE ZONE 0 °C / SAFE DEFROST *

A compartment designed to keep delicate food such as meat and fish fresh. The low temperature in the compartment makes it possible to store the food for up to one week - tests performed on meat products - without changing its nutrients, appearance and flavour.

The compartment is also very suitable for healthy food defrosting, as low-temperature defrosting prevents any proliferation of microorganisms, while protecting its taste and organoleptic properties.

It is not suitable for fruit, vegetables and green salad. But it can be used for stuffed fresh pasta and even cooked food or leftovers.

TEMPERATURE INDICATOR *

Temperature indicator informs you if the temperature in this cavity is cold enough for storage with the word "OK".

1. Check that OK appears clearly on the indicator light (see the picture below).

2. If the word "OK" does not appear it means that the temperature is too high: set a lower temperature and wait approximately 10 hours until the temperature has been stabilised.

3. Check the indicator light again: if necessary, readjust it following the initial process. If large quantities of food have been added or if the refrigerator door has been opened frequently, it is normal for the indicator not to show OK. Wait at least 10 hours before adjusting the REFRIGERATOR OPERATION knob to a higher setting.

SHELVES *

Due to the special guides the shelves are removable and the height is adjustable, allowing easy storage of large containers and food.

FRUIT AND VEGETABLE BIN *

The salad crispers fitted inside the fridge have been specially designed for the purpose of keeping fruit and vegetables fresh and crisp. Open the humidity regulator (position B) if you want to store food in a less humid environment like fruit, or close it (position A) to store food in a more humid environment like vegetable.

**ALARM TABLE**

ALARM TYPE	SIGNAL	CAUSE	SOLUTION
Door open alarm	The acoustical alarm is activated and the Alarm Indicator blinks.	The door has remained open for more than 2 minutes.	Close the door or press the Stop Alarm to mute the acoustical alarm.
Temperature Alarm	The Temperature LEDs display blinks (°C) and the Alarm Indicator remains on.	The inside freezer temperature is not adequate.	Press the Stop Alarm button ; the acoustical alarm stops, the Temperature Display (°C) blinks and the Alarm Indicator remains on until a temperature < -10°C is reached.
Long Black-Out alarm	The Black Out Alarm icon remains on, the Alarm indicator blinks.	Prolonged power failure, able to cause the inside temperature to increase to 0°C.	Press the Stop Alarm button ; the acoustical alarm stops, the Temperature Display (°C) blinks and the Alarm Indicator remains on until a temperature < -10°C is reached.

SOME OF THE FUNCTIONAL SOUNDS YOU MIGHT HEAR

A hissing sound when switching on the appliance for the first time or after a long pause.

A gurgling sound when refrigerant fluid enters into the pipes.

BRRR sound is from the compressor running.

Buzzing sound when water valve or fan start working.

A cracking sound when compressor starts.

The CLICK is from the thermostat which adjusts how often the compressor is running.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
