1. Introduction

Transcend's DrivePro™ 550 Dashcam is an advanced dual-lens in-car recorder that is specifically designed to capture real time videos and photos of events happening outside and inside your vehicle. The DrivePro 550's front lens integrates a Sony sensor, a wide 160° angle lens, and a $f/2.2$ aperture to record images in crystal clear Full HD 1080P (30 FPS). The rear rotatable lens has four Infrared LEDs that automatically turn on in low light conditions, dramatically increasing in-car recording quality even at night. The DrivePro 550's built-in GPS/Glonass receiver can geotag videos and photos, precisely identifying where an incident happened. The DrivePro 550 has additional features to ensure greater safety, including Lane Departure Warning System, Forward Collision Warning System, Headlight Reminder, and Driver Fatigue Alert. The Parking monitoring mode protects the vehicle even when the driver is away. The DrivePro 550 also features Wi-Fi connectivity that works with the exclusive DrivePro App to provide real-time footage playback and download. For Windows users, the DrivePro Toolbox provides a sorting function to quickly locate video clips; the screenshot function also allows for the capture of a single frame.

Features

- Smooth and detailed Full HD 1080P and HD 720P recording at 30fps resolution
- Front and rear lenses to record what happens outside and inside your vehicle
- Rear lens with Infrared LEDs for clear night vision and low light conditions
- Built-in GPS/Glonass receivers to identify your position
- Built-in Wi-Fi connectivity for live streaming and easy operation via the DrivePro App
- Bright 2.4-inch color LCD screen
- 160° wide angle lens
- Bundled with Transcend's microSD memory card
- Built-in dual-lens camera to capture real-time images while recording
- Hi-Speed USB 2.0 connector for easy computer connectivity and fast file transfers
- Record videos in .MP4 file format with 15Mbps high video bit rate
- Built-in speaker and microphone
- Built-in Li-Polymer battery
- Safety alerts: lane departure warning, forward collision warning, headlight reminder, and driver fatigue alert.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
