SAFETY GUIDELINES

Your safety and the safety of others are very important.

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the safety alert symbol.

This symbol alerts you to potential hazards that can kill or hurt you and others.

All safety messages will follow the safety alert symbol and either the word "DANGER" or "WARNING." These words mean:

⚠ DANGER

You can be killed or seriously injured if you don't immediately follow instructions.

⚠ WARNING

You can be killed or seriously injured if you don't follow instructions.

All safety messages will tell you what the potential hazard is, tell you how to reduce the chance of injury, and tell you what can happen if the instructions are not followed.

⚠ WARNING

Electrical Shock Hazard

Disconnect power before servicing.

Replace all parts and panels before operating.

Failure to do so can result in death or electrical shock.

This service manual is written for the professional service technician who is familiar with the KitchenAid blender. The following guidelines should be adhered to when servicing this product.

Service Environment

- The workplace will be dry and sanitary at all times and all units should be inspected for cleanliness before any work is started.
- Visually inspect the unit requiring service in a well-illuminated area.
- A mild, non-abrasive dishwashing soap solution and clean towel can be used to wash any unit requiring attention.
- The hands of the Service Technician should be clean at all times during the service procedure.

Electrical Considerations

- The work place for the blender must have properly grounded AC outlets that adhere to all local electrical codes that are applicable at the time of the repair.
- The blender power cord should always be inspected first before testing the blender operation. Do not run the blender if the power cord is damaged. Replace a damaged power cord.
- All disassembly and assembly procedures discussed in this manual should be conducted with the unit disconnected from power.
- Do not leave the blender unattended while running for extended periods. Always unplug the blender immediately after conducting your tests.

Technician

- The service technician should wear protective eyewear at all times when conducting a repair on the KitchenAid blender.
- Loose fitting sweaters, shirt sleeves or bracelets should not be worn while servicing the KitchenAid blender.

FOREWORD:

The KitchenAid blender is a high-quality appliance. All KitchenAid blenders are well designed and built. Normally they will give continual use year-after-year without service attention. Records have been maintained over a period of years to determine and correct, through improved design, any troubles that might possibly develop. An effort has been made in preparation of this manual to cover all service issues.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
