EN – INSTRUCTIONS FOR USE

BOX CONTENTS:

- 1× air purifier
- 1× filter (already installed in the air purifier)
- 1× Quick Start Guide
- 1× safety Instructions

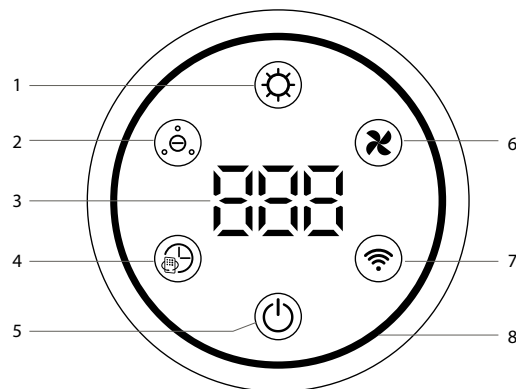

PRODUCT DESCRIPTION:

- 1. Air outlet
- 2. Control panel
- 3. Air purifier body
- 4. Power cord

- 5. Base
- 6. Back cover
- 7. Air quality sensor
- 8. Air inlet

CONTROL PANEL DESCRIPTION:

- 1. UV light button
- 2. Ionization button
- 3. Air pollution value
- 4. Timer and filter reset button

- 5. Power button
- 6. Fan speed button
- 7. WiFi connection button
- 8. Air quality indicator

GETTING STARTED:

Before first use, carefully remove the air purifier from the box and the plastic packaging. Make sure that all accessories and components of the purifier have been removed before storing or disposing of the packaging materials. Next, make sure the following have been carried out.

- The filter has been removed from the plastic packaging in which it is supplied.
- The voltage to be supplied to the purifier is the same as that indicated on the label.
- The air inlet and outlet are completely unobstructed.
- If the filter cover is not properly attached, the purifier will not function properly. Therefore, make sure that the cover is attached correctly.

CONNECTING A MOBILE DEVICE:

You can control the TrueLife Air Purifier P5 WiFi using a mobile device. Download and install the **Tuya Smart** app.

Use the app to pair the purifier with your smartphone. Follow the app's instructions to continue.

Detailed video instructions on how to pair the air purifier with your mobile device can be found here:

https://www.truelife.eu/videos/air_purifier_px_wifi/

USING THE AIR PURIFIER:

Power button

- This is used to turn the purifier on and off. When pressed, the purifier automatically starts in smart mode.

Timer and filter reset button

- The timer can be set from 1 to 8 hours. Each time you press the button, it increases the operating time by 1 hour. After the set operating time has elapsed, the air purifier automatically switches off.
- The filter icon will flash when the filter needs to be replaced (filter replacement is described below). After it has been replaced, hold down the button for 3 seconds. The icon will stop flashing and the filter reset is complete.

UV light button

- The UV light button turns ultraviolet radiation on or off.

Ionization button

- The air purifier automatically turns on the air ionizer. You can turn it off or on again in the application.

Fan speed button

- Three fan speeds can be set on the air purifier: low, medium and high. Use the fan speed button to toggle between these speeds or set smart or sleep mode.

Note: When switched on, the purifier automatically starts in smart mode.

Smart mode

- In smart mode, the purifier regulates the fan speed according to environmental pollution. This means you do not have to set the speed manually; the air purifier will automatically adjust it for you.

Sleep mode

- In sleep mode, the fan operates at a low speed. All lights and backlights are switched off or dimmed to a minimum.

WiFi button

- To pair with a mobile device for the first time, hold down the WiFi button for 3 seconds. When the button starts flashing, the air purifier is ready for pairing. To pair, follow the instructions in the app.

Child lock

- To lock the control panel, hold down the UV light button and the WiFi button at the same time for 3 seconds.
- To unlock the control panel, again hold down the UV light button and the WiFi button at the same time.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
