FOREWORD

Thank you for purchasing the new Nikon F70/F70D camera.

Although the F70/F70D camera offers many exciting features, it is easy to operate. The F70/F70D camera's Command Control Input System enables you to set camera function and shooting mode by just pressing buttons that are colour-coordinated with their corresponding images in the large LCD.

With the built-in flash, which offers many advanced functions including 3D Multi-Sensor Balanced Fill-Flash, you will enjoy advanced flash photography and make better flash pictures than ever before.

Get to know your F70/F70D camera, but before using it, be sure to read this manual thoroughly; then turn your vision into reality with the F70/F70D camera.

For F70D users

When taking panorama pictures, always read "IMPORTANT NOTES ON PANORAMA PICTURES" on pages 86 to 87.

NOMENCLATURE

Once you know the names of the parts of your new Nikon F70/F70D, as well as their functions and the camera's other controls, you will be surprised how simple and logical the F70/F70D's operation can be.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
