**Package contents:**

Wireless keyboard  
USB receiver  
User's manual

**Equipment description:**

1. Power ON/OFF switch
2. Touchpad on/off indicator, Numlock indicator
3. Caps Lock indicator
4. MicroUSB charging port
5. Low battery/charging indicator
6. Keyboard section
7. Touchpad "touch area"

**Putting into operation:**

Before using for the first time, please fully charge the integrated battery. Charge the battery using the MicroUSB type charging port. For charging, please use an adapter of your own (5V, 1A) and a MicroUSB type charging cable. The LED indicator lights red while charging is in progress. Then connect the dongle [receiver] to the equipment you wish to use the keyboard with. When the dongle is connected to your equipment [TV, PC etc.], turn the keyboard on with the ON/OFF switch and wait until the automatic wireless connection is established and the installation of required drivers in your equipment is finished.

**Type:**

When you finish using the keyboard, set the ON/OFF switch to the OFF position to disconnect the integrated battery.

**Caution:**

As there is a wide range of commercially available devices, mutual compatibility should be checked before connection. Keep the keyboard within a declared distance from USB receivers. Avoid disturbing the wireless communication between the keyboard and USB receivers by another wireless equipment.

### Touchpad:

To enable/disable the touchpad to move the cursor on your equipment, press Fn + Ctrl (on the right). Keep the touchpad disabled while not in use. With the touchpad disabled, the battery lifetime in your keyboard will be extended.

Gestures - with a combination of several fingers, you can control your device faster. Please verify if your application supports all gestures.

**Select an item:** Tap on the touchpad (mouse left click)

**Show more commands:** Tap the touchpad with two fingers (mouse right click).

**Scroll:** Place two fingers on the touchpad and slide horizontally or vertically.

**Zoom in or out:** Place two fingers on the touchpad and pinch in or stretch out

**See all open windows:** Place three fingers on the touchpad and swipe them away from you  
**Show the desktop:** Place three fingers on the touchpad and swipe them towards yourself.

**Switch between open windows:** Place three fingers on the touchpad and swipe right or left

**Open action center:** Tap four fingers on the touchpad

**Open Cortana:** Tap three fingers on the touchpad.

**Caution:** if the touchpad is inactive for a prolonged period of time, the keyboard should be first waken up by pressing any key.

Keep the touchpad in a clean condition.

### Keyboard:

Combination of Fn and a blue-marked key.

### Specification:

Input: micro USB (cable included)  
| Power input: 5V DC / 200 mA  
| Built in battery: 230mAh (Lithium) | Charging time: 90 min. | Working time: 80 h (with touchpad active 20 h) | Touch panel resolution: 1200 DPI  
| Connection: 2.4G wireless  
| Operating range: < 10 meters  
| Material: ABS | Dimensions: 367 x 121 x 19 mm | Keyboard weight: 330 g

### System requirements:

USB port

# Obsah je uzamčen

**Dokončete, prosím, proces objednávky.**

**Následně budete mít přístup k celému dokumentu.**

**Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:**

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne\*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

*\*) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
