USER MANUAL TX95B

1.Explanation of symbols.

DANGER!

Safety note: Non-observance can result in death or serious injury.

CAREFULLY!

Safety note: Failure to comply can result in injury.

ATTENTION!

Non-observance can lead to material damage or interference with the product.

TIP

Supplementary information on product handling.

Please read this manual carefully before starting the device. Keep these instructions. The manufacturer is not liable for damages resulting from improper use or incorrect operation.

2.Safety information

- The device and / or its power cord may not be used if they show any signs of damage.
- The device should be connected to a power source that complies with the data included in the technical specification, only with the supplied power cords. 100-240V power supply requires cable connection via the AC / DC adapter.
- The device must be disconnected from the mains after each use and before cleaning / maintenance.
- If the device requires repair, contact the manufacturer's service. Contact details can be found at www.arkas.pl.
- Repairs may only be carried out by qualified persons. Self-repair can cause serious health or life hazards.
- For safety reasons, replacement of the LED lighting should be performed by the manufacturer or an authorized service center.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Children aged from 3 to 8 years are allowed to load and unload cooling device.
- Do not store caustic substances, containing solvents, which are known to be explosive or compressed flammable gases in the device.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- This refrigeration appliance is not intended to be used as a built-in appliance.
- This appliance is intended to be used in household and similar applications such as
 - Staff kitchen areas in shops, offices and other working environments
 - Farm houses and by clients in hotels, motels and other residential type environments
 - Bed and breakfast type environments
 - Catering and similar non-retail applications
- This refrigeration appliance is not suitable for the freezing of foodstuffs.
- The refrigeration appliance is intended for use in an ambient temperature ranging from 10 ° C to 32 ° C, or 16 ° C to 32 ° C, or 16 ° C to 38 ° C, or 16 ° C to 43 ° C. Detailed information can be found in the "technical data" section of this manual.
- Protect the device against adverse weather conditions such as rain. The device is not waterproof.
- Do not use or store the device near fire or other heat sources.
- During operation, the device should be located in a well-ventilated room. Ensure adequate space between the device and other equipment (≥200mm on the back of the device, ≥100mm on the sides of the device).
- The appliance cooling system contains the flammable refrigerant R1234YF. The device that is not fit for further operation should be delivered to a specialized recycling plant for the recovery of the refrigerant.
- It is forbidden to interfere with the refrigeration system and its circuits in order to modify or damage it.
- The device insulation contains cyclopentane. The device, which is not suitable for further operation, should be delivered to a specialized disposal facility.
- Before disposing of the old appliance, remove the lid, but leave the inner baskets and partition wall (selected models) so that children cannot get inside.
- The manufacturer's warranty period - 24 months from the date of purchase.
- The minimum period for which spare parts necessary to repair are available is 7 or 10 years, depending on the type and purpose of the spare part, and is in line with

Commission Regulation (EU) 2019/2019. The list of spare parts and the ordering procedure are available on the websites of the manufacturer, importer or authorized representative.

More information about the product can be found in the EU Product Database EPREL at <https://eprel.ec.europa.eu>. Information can be obtained by scanning the QR code on the energy label or by entering the product model from the energy label in the EPREL search engine <https://eprel.ec.europa.eu>.

3. Description of operation and basic functions

- The portable refrigerator is intended for storing fresh food.
- Thanks to high-class insulation and an efficient compressor, the cooling process is extremely fast.
- The device has two compartments with separate Dual-Zone temperature control.
- The fridge can be powered from battery (modular or external), AC 100-240V, DC 12 / 24V or by using solar panel (only with modular battery installed – not included)
- The modular battery slot allows the installation of the battery inside the device. Battery sold separately.
- For battery power, use only compatible batteries offered by the manufacturer. The use of an incompatible or non-original battery may damage the device and void the warranty.
- 15600mAh battery allows you to maintain the temperature inside the device for up to 3 hours (5°C/41°F at an ambient temperature of 25°C/77°F)
- The device has multi-level protection of the vehicle battery against discharge and overvoltage protection to protect against sudden voltage surges in the electrical network.
- The control panel with a clear LCD screen enables intuitive control of the device.
- The fridge is equipped with a Bluetooth 5.0 transmitter. This allows you to control it using an application designed for mobile devices (Android / iOS).
- Built-in USB socket allows you to charge external devices such as a smartphone or tablet.
- Telescopic handles and wheels allow for convenient movement of the device. To extend or hide the telescopic handle, release the brakes on both sides.
- Internal wire baskets make it easy to manage the contents of the device.

4. Contents of the package

- Portable fridge with compressor
- Inner baskets
- 12/24V power cord (length: 3.5m/11,4ft)
- AC/DC adapter with 100-240V power cord (EU/UK)
- User manual

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
